

## Step 1

- Fill out data form completely.
- Place data form in Ziploc bag, and seal bag.

## Step 2

- Remove deer's head, leaving 4 to 6 inches of neck attached.
- Zip tie one metal tag to deer's ear and one to deer's hock

## Step 3

- Place Deer head in 1<sup>st</sup> bag. Seal this bag.

## Step 4

- Place sealed bag with head in second bag.
- Place ziploc bag, containing data form, in second bag.
- Seal 2<sup>nd</sup> bag and place in freezer
